

# Q3 DIFFERENTIATION RECORD FORM

# GB

## ELA

Creative Writing - Monthly creative writing prompts provide an outlet for students to explore complex ideas, express their thoughts, and engage in critical thinking. Students work at their own pace and explore topics that interest them deeply. They develop their ability to think outside the box, generate innovative ideas, and craft solutions to narrative challenges. It also allows them to refine their communication skills, experiment with different writing styles, and effectively convey their ideas to others.

## Math

Differentiating within Math Workshop — We developed various ways to differentiate process, content, and product within the math workshop format. Pattern Shapes, Geoboard, and measurement manipulatives provided meaningful vocabulary practice through games and independent activities. Games were also used to apply geometry and previously learned concepts.

## Science

Force & Motion — Students explored force and motion using different scientific materials in science. Students engaged in various activities, virtual investigations, and labs to strengthen their understanding and activate background knowledge.

# Oakridge

## ADVANCED ACADEMICS

At Oakridge, teachers and staff are committed to ensuring our students learn and grow. When students demonstrate readiness, we use resources and strategies to push their thinking beyond acquisition and fluency to generalization and adaptation. In quarter 3, we implemented a range of resources and strategies to differentiate for our students. These initiatives provide them with challenging and rigorous content and promote critical and creative thinking. We are dedicated to nurturing and encouraging the exceptional abilities of our students. By offering differentiated learning experiences, we can help every child realize their full potential.

This form highlights some ways we've promoted critical and creative thinking, provided rigorous content, and extended our curricular goals.
